

THREE SERVICES YOU PAY FOR. ONE VENDOR THAT STAYS.

HERO IN MOTION

01 IMPLEMENTATION

THIS IS FOR YOU IF
you have implemented, or
are implementing and could
use help

PRO • \$150K/yr or one-time

THE TRADITIONAL WAY

A large SI team configures, tests and migrates by hand, then rolls off.

18 months

- Costly change orders
- Missing conversions found late
- Integrations that slip the plan

WITH DAYOS HERO

48 HOURS faster, with the same scope

48 hours

- **Example:** a \$30M, 2.5+ year ERP + HCM implementation, done in under 48 hours
- Our AI-led process works through change orders, conversions and integrations instead of finding them late

LET'S TALK ABOUT

How did your implementation go, and what is still on the list?

02 MANAGED SERVICES (AMS)

THIS IS FOR YOU IF
you are live and paying
for AMS or a support team

STARTER • \$60K/yr

THE TRADITIONAL WAY

An AMS contract runs a ticket desk, with your full-time team working alongside it.

2 to 3 weeks per request

- Tickets stuck 30+ days
- One AP approval redesign quoted at 200 Oracle CSU

WITH DAYOS HERO

2 TO 3 HOURS per request, down from 2 to 3 weeks

2 to 3 hours per request

- **Goal: save \$1M a year.** \$1M is on display at our booth: savings quantified for other customers
- About \$10 a ticket; 60 to 80% off the support bill; 60 to 70% of open tickets automated; live in 48 hours

SAVE MONEY

Run your numbers in the ROI calculator

GO FASTER WITH THE SAME TEAM

Demo the Configuration Agent

LET'S TALK ABOUT

How long does support take to resolve your requests today?

03 CUSTOM AGENTS

THIS IS FOR YOU IF
your software does not
match how your business
works

PRO • 90-day pilot

THE TRADITIONAL WAY

The software does not match your business requirements, so manual work builds up around it. Teams patch by hand, bolt on RPA, or build with a toolkit such as Oracle AI Agent Studio.

18-month projects

WITH DAYOS HERO

90 DAYS to production-ready agents

90 days

- **Example, month-end close:** 30%+ faster (1+ day saved), 50%+ less manual coordination
- **Example, bank reconciliation:** targets 60 to 70% auto-reconciliation of 1 to 2 weeks of monthly work
- Agents run inside your ERP and stay private to you

LET'S TALK ABOUT

What does your team still have to do manually every month?

ACROSS ALL
THREE
SERVICES

BRING YOUR OWN MODEL

Manage the spend: budgets and usage by user

CLOUD-HOSTED

Native to your cloud ERP

ISO/IEC 42001

Certified AI management

SOC 2 TYPE II

Certified security controls

Bring a real support request and watch our agent solve it.
Then run your AMS and full-time team costs through our **ROI calculator**.
